Introduction

The Centers for Medicare & Medicaid Services (CMS) Care Compare website provides a single user-friendly interface that consumers can use to understand information about nursing homes, doctors, long-term care hospitals, and other health care services instead of searching through multiple tools. Care Compare enables patients and caregivers to make informed decisions about healthcare based on cost, quality of care, volume of services, and other data. Information about the quality measures on Care Compare are presented similarly and clearly across all provider types and care settings. Consumers can select multiple facilities and compare their performance on various quality metrics. To access the Care Compare website, please visit <https://www.medicare.gov/care-compare>.

This document provides information about the Skilled Nursing Facility Quality Reporting Program (SNF QRP) data on Care Compare. Care Compare provides data on over 15,000 SNFs that participate in the SNF QRP program. More information about the SNF QRP measures displayed on Care Compare can be found by visiting the SNF QRP Technical Information page at: <https://www.cms.gov/Medicare/Quality-Initiatives-Patient-Assessment-Instruments/NursingHomeQualityInits/Skilled-Nursing-Facility-Quality-Reporting-Program/SNF-Quality-Reporting-Program-Measures-and-Technical-Information>.

Care Compare information about SNFs is typically updated or refreshed quarterly in January, April, July, and October; however, the refresh schedule is subject to change and not all measure data will be updated during each quarterly release. See Appendix A: Care Compare Anticipated SNF Refreshes and Data Collection Timeframes for the full list of SNF measures contained in the downloadable data found on the Provider Data Catalog website, along with information about reporting cycles for each measure.

Links to download the data from the zipped comma-separated value (CSV) flat file formats can be found on the Provider Data Catalog website. When archived data becomes available, it will also be provided in the Provider Data Catalog. To access the Provider Data Catalog, please visit: <https://data.cms.gov/provider-data/>.

Care Compare and the Provider Data Catalog are publicly accessible websites. As works of the U.S. government, the data on these websites are in the public domain and permission is not required to reuse them. An attribution to the Centers for Medicare & Medicaid Services as the source is appreciated. However, Care Compare data should not be construed as an endorsement by the U.S. Department of Health and Human Services of any health care provider's products or services. Conveying a false impression of government approval, endorsement or authorization of products or services is forbidden. See 42 U.S.C.1320b-10.

Leading Zeros in Excel

CSV Flat Files Note: Opening CSV files in Excel will remove leading zeroes from data fields that may include leading zeroes (e.g., provider numbers).

Users can follow these instructions to add back the leading zeroes. First, after you download a dataset from the Provider Data Catalog, open a new spreadsheet in Excel. Next, on the excel navigation pane, click **Data > From Text**. Within the “Import Text File” window, locate the file you downloaded from PDC and click **Import**.

- For users with an older version of Excel, when the “Text Import Wizard – Step 1 of 3” window opens, select **Delimited > Next**. For “Step 2 of 3,” deselect **Tab** and select **Comma > Next**. For “Step 3 of 3,” select **Text > Finish**. Finally, when “Import Data” window appears, click **OK**.
- For users with a newer version of Excel, select **Delimiter > Comma**, then select **Data Type Detection > Based on the Entire Dataset**. Finally, click **Transform Data**.

After completing these steps, you should be able to see leading zeros within the dataset.

Table 7: Footnote Descriptions

The footnote numbers below are associated with the SNF QRP quality measures posted on Care Compare:

Footnote number	Footnote as displayed on Care Compare	Footnote details
1	Newly certified nursing home with less than 12-15 months of data available or the nursing home opened less than 6 months ago, and there were no data to submit or claims for this measure.	- The 12-15 months criteria is specific to Nursing Homes only. The remainder of the criteria applies to SNF: - SNF has been open for less than 6 months. - There was no SNF QRP data to submit for this measure (assessment-based measures). - Number of SNF stays included in the denominator equals zero. - SNF had no claims data. - No CDC data for the provider because there were no patients admitted and discharged from the facility as represented by a measure denominator of zero.
7	CMS determined that the percentage was not accurate, or data suppressed by CMS for one or more quarters.	The results for these SNF quality measures were excluded by CMS.
9	The number of residents or resident stays is too small to report. Call the facility to discuss this quality measure.	- The number of cases/residents doesn't meet the SNF QRP required minimum denominator amount for public reporting. - When there was at least one resident stay in the denominator, but the SNF QRP minimum reporting thresholds were not met or the denominator was 0 if and only if data was available and submitted, but all resident stays were excluded due to the exclusion criteria. - To protect personal health information
10	The data for this measure is missing or was not submitted. Call the facility to discuss this quality measure.	- The SNF did not submit required data for the SNF QRP. - No CDC data for the provider because there were no patients admitted and discharged from the facility as represented by a measure denominator of zero.

Footnote number	Footnote as displayed on Care Compare	Footnote details
13	Results are based on a shorter time period than required.	The time period between the start and end date of the data reported is less than the full data collection period for the applicable measure.
14	This nursing home is not required to submit data for the Skilled Nursing Facility Quality Reporting Program.	There are no SNF QRP measures data available for this nursing home.
