

ACO Realizing Equity, Access, and Community Health (ACO REACH) Model Methodology

Overview

This dataset contains records of publicly-available events and announcements related to the Centers for Medicare and Medicaid Services (CMS) Innovation Center ACO REACH Model (redesigned and renamed from the Global and Professional Direct Contracting Model) for Performance Year 1 (2021). This dataset includes information on financial and quality performance, ACO and participating provider characteristics, the eligible population of beneficiaries, and the aligned population beneficiaries. More information on the ACO REACH Model can be found at <https://innovation.cms.gov/innovation-models/aco-reach>.
