

Medicare Inpatient Hospitals - by Provider

Data Dictionary

Variable Name	Term Name	Definition
Rndrng_Privr_CCN	Rendering Provider CCN	The CMS Certification Number (CCN) of the provider billing for inpatient hospital services.
Rndrng_Privr_Org_Name	Rendering Provider Name	The name of the provider.
Rndrng_Privr_St	Rendering Provider Street Address	The street address in which the provider is physically located.
Rndrng_Privr_City	Rendering Provider City	The city in which the provider is physically located.
Rndrng_Privr_Zip5	Rendering Provider Zip Code	The zip code in which the provider is physically located.
Rndrng_Privr_State_Abrvtn	Rendering Provider State Abbreviation	The abbreviation for the state in which the provider is physically located.
Rndrng_Privr_State_FIPS	Rendering Provider State FIPS Code	The state FIPS code for the state in which the provider is physically located.
Rndrng_Privr_RUCA	Rendering Provider Rural-Urban Commuting Area Codes	The Rural-Urban Commuting Area (RUCA) code for the zip code in which the provider is physically located.
Rndrng_Privr_RUCA_Desc	Rendering Provider Rural-Urban Commuting Area Description	The description of the RUCA code.
Tot_Benes	Number of Medicare Beneficiaries	Total Medicare beneficiaries receiving services from the provider. The beneficiary counts reported in the demographic sub-groups (i.e., age, sex, race and entitlement) may not aggregate to the 'Number of Unique Beneficiaries' due to the suppression of beneficiaries fewer than 11 within the demographic sub-groups. In addition, a small percentage of beneficiaries are reflected in the "Number of Unique Beneficiaries" but are not reflected in the beneficiary demographic information due to the lack of demographic information available at the time of reporting.
Tot_Submtd_Cvrd_Chrg	Total Covered Charges	The total submitted charge of all provider services covered by Medicare. Submitted charges will vary from hospital to hospital because of differences in hospital charge structures.
Tot_Pymt_Amt	Total Payment Amount	The total payments to providers for the DRG including the MS-DRG amount, teaching, disproportionate share, capital, and outlier payments for all cases. Also included in total payments are co-payment and deductible amounts that the patient is responsible for and any additional payments by third parties for coordination of benefits.
Tot_Mdcr_Pymt_Amt	Total Medicare Payment Amount	The total amount that Medicare pays to the provider for Medicare's share of the MS-DRG. Medicare payment amounts include the MS-DRG amount, teaching, disproportionate share, capital, and outlier payments for all cases. Medicare payments DO NOT include beneficiary co-payments and deductible amounts nor any additional payments from third parties for coordination of benefits.
Tot_Dschrgs	Total Discharges	The number of discharges billed by the provider for inpatient hospital services.
Tot_Cvrd_Days	Total Covered Days	The total number of days of care, per provider, which were covered in full or in part by Hospital Insurance (HI) Medicare benefits; excluded are days of care prior to a beneficiary's entitlement to HI benefits, and days of care after exhaustion of benefits.

Medicare Inpatient Hospitals - by Provider

Data Dictionary

Variable Name	Term Name	Definition
Tot_Days	Total Days	The accumulated count of days, per provider, during which inpatient hospital services were furnished to a person eligible for Part A benefits under Medicare, including covered and non-covered days of care.
Bene_Avg_Age	Beneficiary Average Age	The average age of Medicare enrollees who used a covered health care or medical service from the provider.
Bene_Age_LT_65_Cnt	Number of Beneficiaries Age Less 65	Number of beneficiaries under the age of 65. Beneficiary age is calculated at the end of the calendar year or at the time of death.
Bene_Age_65_74_Cnt	Number of Beneficiaries Age 65 to 74	Number of beneficiaries between the ages of 65 and 74. Beneficiary age is calculated at the end of the calendar year or at the time of death.
Bene_Age_75_84_Cnt	Number of Beneficiaries Age 75 to 84	Number of beneficiaries between the ages of 75 and 84. Beneficiary age is calculated at the end of the calendar year or at the time of death.
Bene_Age_GT_84_Cnt	Number of Beneficiaries Age Greater 84	Number of beneficiaries over the age of 84. Beneficiary age is calculated at the end of the calendar year or at the time of death.
Bene_Feml_Cnt	Number of Female Beneficiaries	Number of female beneficiaries.
Bene_Male_Cnt	Number of Male Beneficiaries	Number of male beneficiaries.
Bene_Race_Wht_Cnt	Number of Non-Hispanic White Beneficiaries	Number of non-Hispanic white beneficiaries. Race/ethnicity information is based on the variable RTI_RACE_CD from the CMS CCW enrollment database. The RTI_RACE_CD variable is based upon a validated algorithm that uses Census surname lists and geography to improve the accuracy of race/ethnicity classification, particularly for those who are Hispanic or Asian/Pacific Islanders.
Bene_Race_Black_Cnt	Number of Black or African American Beneficiaries	Number of non-Hispanic black or African American beneficiaries. Race/ethnicity information is based on the variable RTI_RACE_CD from the CMS CCW enrollment database. The RTI_RACE_CD variable is based upon a validated algorithm that uses Census surname lists and geography to improve the accuracy of race/ethnicity classification, particularly for those who are Hispanic or Asian/Pacific Islanders.
Bene_Race_API_Cnt	Number of Asian Pacific Islander Beneficiaries	Number of Asian Pacific Islander beneficiaries. Race/ethnicity information is based on the variable RTI_RACE_CD from the CMS CCW enrollment database. The RTI_RACE_CD variable is based upon a validated algorithm that uses Census surname lists and geography to improve the accuracy of race/ethnicity classification, particularly for those who are Hispanic or Asian/Pacific Islanders.

Medicare Inpatient Hospitals - by Provider

Data Dictionary

Variable Name	Term Name	Definition
Bene_Race_Hspnc_Cnt	Number of Hispanic Beneficiaries	Number of Hispanic beneficiaries. Race/ethnicity information is based on the variable RTI_RACE_CD from the CMS CCW enrollment database. The RTI_RACE_CD variable is based upon a validated algorithm that uses Census surname lists and geography to improve the accuracy of race/ethnicity classification, particularly for those who are Hispanic or Asian/Pacific Islanders.
Bene_Race_NatInd_Cnt	Number of American Indian/Alaska Native Beneficiaries	Number of American Indian or Alaska Native beneficiaries. Race/ethnicity information is based on the variable RTI_RACE_CD from the CMS CCW enrollment database. The RTI_RACE_CD variable is based upon a validated algorithm that uses Census surname lists and geography to improve the accuracy of race/ethnicity classification, particularly for those who are Hispanic or Asian/Pacific Islanders.
Bene_Race_Othr_Cnt	Number of Beneficiaries With Race Not Elsewhere Classified	Number of beneficiaries with race not elsewhere classified.
Bene_Dual_Cnt	Number of Beneficiaries With Medicare & Medicaid Entitlement	Number of Medicare beneficiaries qualified to receive Medicare and Medicaid benefits. Beneficiaries are classified as Medicare and Medicaid entitlement if in any month in the given calendar year they were receiving full or partial Medicaid benefits.
Bene_Ndual_Cnt	Number of Beneficiaries With Medicare Only Entitlement	Number of Medicare beneficiaries qualified to receive Medicare only benefits. Beneficiaries are classified as Medicare only entitlement if they received zero months of any Medicaid benefits (full or partial) in the given calendar year.
Bene_Avg_Risk_Scre	Average HCC Risk Score of Beneficiaries	Average Hierarchical Condition Category (HCC) risk score of beneficiaries.
