

Health Insurance Exchanges Annual Effectuated Enrollment Data Dictionary

Variable Name	Term Name	Definition
State	State	Two-letter state code for grouping effectuated enrollment by state. Includes "Total" values indicating platform-level enrollment totals (all platforms, HealthCare.gov, and State-Based Exchanges).
Year	Year	Specifies the coverage year for which effectuated enrollment data is reported.
Platform	Platform	Indicates the individual insurance marketplace model the state participates in. Values include "All," which represents all marketplace platforms; "HealthCare.gov," which includes Federally Facilitated Exchanges (FFE) and State-Based Exchanges on the Federal Platform (SBE-FPs); and "SBE," which represents State-Based Exchanges that operate their own Exchange and conduct eligibility determinations, enrollment, and other related functions. See the Platform reference table in the Methodology file for additional details.
Effectuated_Enr	Effectuated Enrollment	Average monthly effectuated enrollment is the average monthly number of individuals with active policies at any point between January and December of the indicated year, who also paid their premiums, if applicable. The average monthly effectuated enrollment was calculated by adding total member months for the indicated year and divided by twelve.
APTC_Enr	Advanced Premium Tax Credit (APTC) Enrollment	The average monthly number of individuals with active policies at any point between January and December of the indicated coverage year, who also paid their premium (if applicable) and received APTC in association with their active policies in the indicated year.
Pct_APTC_Enr	Percentage of Enrollment with APTC	The average monthly number of APTC enrollees divided by the average monthly total enrollment for the respective state.
CSR_Enr	Cost-Sharing Reductions (CSR) Enrollment	The average number of individuals with active policies at any point between January and December of the indicated coverage year who also paid their premium (if applicable) and received CSR in association with their active policies in the indicated coverage year.
PPct_CSR_Enr	Percent of Enrollment with CSR	The average monthly number of CSR enrollees divided by the average monthly total enrollment for the respective state.
Avg_Prm	Average Total Premium per Month	The sum of total monthly premium amounts across all months in the indicated coverage year, divided by the sum of total monthly member counts across all months in the indicated coverage year.
Avg_APTC	Average APTC per Month (for Consumers receiving APTC)	The sum of total monthly APTC amounts across all months in the indicated coverage year, divided by the sum of total monthly APTC member counts across all months in the indicated coverage year.
Avg_Prm_Aft_APTC	Average Premium after APTC per Month	The sum of total monthly premium amounts across all months in the indicated coverage year, minus the sum of total monthly APTC amounts across all months in the indicated coverage year, divided by the sum of total monthly member counts across all months in the indicated coverage year.
