

Health Insurance Exchanges Monthly Effectuated Enrollment Data Dictionary

Variable Name	Term Name	Definition
State	State	Two-letter state code for grouping effectuated enrollment by state. Includes "Total" values indicating platform-level enrollment totals (all platforms, HealthCare.gov, and State-Based Exchanges).
Platform	Platform	Indicates the individual insurance marketplace model the state participates in. Values include "All," which represents all marketplace platforms; "HealthCare.gov," which includes Federally Facilitated Exchanges (FFE) and State-Based Exchanges on the Federal Platform (SBE-FPs); and "SBE," which represents State-Based Exchanges that operate their own Exchange and conduct eligibility determinations, enrollment, and other related functions. See the Platform reference table in the Methodology file for additional details.
Year	Year	Specifies the coverage year for which effectuated enrollment data is reported.
Month	Month	Specifies the month in the coverage year for which effectuated enrollment data is reported.
Effectuated_Enr	Effectuated Enrollment	The total number of individuals with active policies at any point in the indicated month of the indicated year who also paid their premium (if applicable).
